

BILL NO. BL2018-1204 (ALLEN, SLEDGE, & MENDES) – This ordinance, as amended, would require the Metro Department of Codes (Codes) to maintain and publish online information regarding affordable housing.

This ordinance would require Codes to publish on Metro's Open Government website an ongoing compilation from which the following can be identified:

- The number and type of demolition permits issued for residential property during the preceding calendar quarter;
- The number and type of residential building permits issued for residential property during the preceding calendar quarter; and
- The number and type of residential occupancy permits issued for residential property during the preceding calendar quarter.
- For multi-family zoning districts, this data would be required to include the number of units demolished or constructed.

Data would be required to be entered not later than 45 days after the issuance of each permit.

Fiscal Note: The Codes Department believes this would have no impact upon their staffing or operational budget needs.
